"I'm passionate about building scalable, efficient, and user-friendly software solutions. With a strong foundation in programming, web development, and database management, I'm eager to contribute to impactful projects while collaborating with teams to drive innovation and achieve shared goals."

## Education

**UNIVERSITY OF THE PUNJAB COLLEGE OF INFORMATION & TECHNOLOGY** (PUCIT – Old Campus) (GPA 3.4)  
Lahore, Punjab  
**Bachelor of Information & Technology** **2019-2023**

## Professional Experience

**SOFTWARE ENGINEER | ILMVERSITY (Hybrid)** **JAN 2024 - PRESENT**

**Full Stack Developer (MERN):** Currently contributing as a Full Stack Developer to ILMVERSITY, a UAE-based EdTech platform, focusing on building and enhancing a scalable product using React, Next.js, Node.js, Express, and SQL. Gained hands-on experience in live server environments, optimizing application performance, and ensuring maintainable code practices.

- Proficient in React, Next.js, Node.js, Express, SQL, AWS, Knex, Sequelize, and Sentry for monitoring and debugging.

**Junior MERN Stack Developer | GameTrain (Onsite)** **July 2023 – DEC 2023**

- Built full-stack web applications with MongoDB, Express.js, React, and Node.js.
- Designed and implemented reusable components and RESTful APIs for optimized functionality.
- Enhanced application scalability and performance through code refactoring and debugging.
- Participated in Agile development sprints and team collaboration sessions.

**MERN Stack Developer Intern | Generation (Remote)** **April 2023 – June 2023**

- Worked on real-world projects involving the MERN stack, gaining hands-on development experience.
- Developed user interfaces and APIs for web applications, ensuring responsiveness and cross-platform compatibility.
- Enhanced understanding of best practices in full-stack development through mentorship and workshops.

## PERSONAL KEY PROJECTS (Other mentioned on portfolio)

- **E-commerce website (WordPress).**
- **Online Book-Store (Bookie.com):** Developed using HTML, CSS, Bootstrap, MySQL, PHP.
- **Mobile Applications (Android Studio):** MyQuranApp, Kids Learner App, Madrassa Registration App.
- **BLOG-APP (MERN STACK):** Developed a hosted personal blogging app using the MERN stack.
- **E-QUEUE Website (Completed FYP using MERN Stack):** Completed the E-QUEUE project as part of my Final Year Project, automating and managing online token assignments for organizations.

## Key Honors & Rewards

**EHSASS SCHOLARSHIP** Lahore, Pakistan

– Received a full merit-based academic scholarship from the University under Ehsass Program. **(2019-2023)**
