T professional with one year of Full Stack experience in MERN and SQL. Seeking a full-time role to apply my skills, drive operational excellence, and pursue continuous growth.

Education

UNIVERSITY OF THE PUNJAB COLLEGE OF INFORMATION & TECHNOLOGY   **(PUCIT – Old Campus) (GPA 3.4)**
Lahore, Punjab
Bachelor of Information & Technology   *2019-2023*

Professional Experience

ILMVERSITY | *December 2023 – Present*
Full Stack Developer (MERN)
- Currently contributing as a Full Stack Developer to ILMVERSITY, a UAE-based EdTech company.
- Engaged in developing and enhancing the core product using React, Express, Node.js, and SQL.
- Acquired hands-on experience with live server environments and optimized product functionality for an enhanced user experience.
- Collaborating with cross-functional teams to improve application performance, scalability, and maintainability.

Boot Camp Experience:
- **Generation Org (Game Train Bootcamp) | JUL 23 – NOV 23**
- Completed boot camp focused on the MERN stack, gaining practical experience in web development technologies, including MongoDB, Express.js, React & Node.js managed by **GAME Train** organized by **Generation**.

Key Projects (*Live*):
- **Hzsempire.ca**   Developed an e-commerce WordPress store.
- **Konsultancy.co**   Developed a financial services website tailored for a client in UAE.
- **Runningoutofspace.co.uk**   Designed and implemented a dynamic website utilizing the MERN Stack.

Academic Experience

Codefest 2.0 (Google Develop Student Club – PUCIT)
I got an appreciation certificate for participating in Codefest 2.0 to solve challenging tasks in a competitive environment.

PROJECTS
- **E-commerce website** (**WordPress**).
- **Online Book-Store (Bookie.com)**:   Developed using HTML, CSS, Bootstrap, MySQL, PHP.
- **Mobile Applications (Android Studio):** MyQuranApp, Kids Learner App, Madrassa Registration App.
- **BLOG-APP (MERN STACK):**   Developed a hosted personal blogging app using the MERN stack.
- **E-QUEUE Website (Completed FYP using MERN Stack):** Completed the E-QUEUE project as part of my Final Year Project, automating and managing online token assignments for organizations.
